

Autobiography Examples For Grade 7

My name is John Smith, and I am seven years old. I was born in a small town called Riverton, located in the state of New York. It has been my home for all my life. My parents are both teachers at the local elementary school, and I have two older sisters.

I enjoy attending school every day, and my favorite subject is math. I am a good student, usually making straight A's on tests and quizzes. In addition to math, I also like science, as well as reading and writing poetry.

Outside of school I have many hobbies that keep me active. I especially love playing sports such as basketball, baseball and soccer. When I'm not playing sports, I like to build things with Lego blocks, or go swimming at the local pool.

I'm also very involved in my church. Every Sunday morning I attend service and volunteer as a youth leader for our junior high group. During summer vacation, I help out by painting the walls of the fellowship hall or teaching music to the younger kids.

My family is very important to me, and I love spending time with them. We always make sure to have dinner together every night, which is a great way for us to stay connected. On the weekends we like to go camping in the nearby woods, or take day trips around our hometown of Riverton.

Overall, I believe life is a journey and we should make the best of it. My goal in life is to make a difference in the world around me by being kind and helping others. With hard work and dedication, I am sure this will come true!
