## Speech Format for Class 11

A speech for Class 11 should be well-structured, engaging, and persuasive. It should have a strong introduction, a detailed body with arguments and examples, and a powerful conclusion.

#### Speech Format

1. **Greeting & Introduction** – Address the audience and introduce the topic.
2. **Body** – Present key arguments, facts, and examples.
3. **Conclusion** – Summarize key points and end with a strong, thought-provoking statement.

---

## Example Speech: Social Media – A Boon or a Bane?

### Greeting & Introduction
Good morning, respected teachers, honorable guests, and dear friends. Today, I am here to talk about something that has become an inseparable part of our lives—social media. It connects people, spreads information, and offers endless entertainment. But is it truly beneficial, or is it causing more harm than good?

### Body

#### 1. Social Media as a Boon
Social media has revolutionized communication. It allows instant connectivity, helps people voice their opinions, and provides access to global information. It is also a great platform for learning, networking, and even business opportunities.

#### 2. The Negative Side of Social Media
Despite its advantages, social media has many drawbacks. It leads to addiction, reduces face-to-face interactions, and spreads misinformation. Cyberbullying, privacy concerns, and mental health issues are growing problems due to excessive social media use.

#### 3. Striking a Balance
Social media is neither entirely good nor bad; it depends on how it is used. If used wisely, it can be a powerful tool for learning and awareness. However, moderation is key. Setting limits, avoiding misinformation, and focusing on real-life interactions can help maintain a healthy balance.

### Conclusion
Social media is like fire—useful when controlled but destructive when misused. It is up to us to make the right choices. Let us use social media responsibly and ensure it remains a boon rather than a bane. Thank you.
